

SHOOTERS, TERRORISTS AND MASS KILLERS WHO USED MARIJUANA

(MONTH/YEAR)

by Parents Opposed to Pot

Many people associate a peaceful, “summer of love” mentality with marijuana. Whatever peace comes over people is not long lasting, as many people develop anxiety with much pot use. In the long run, use changes the brains in such a way that people do things they may not have done without the drug’s assault on their brains.

These violent offenders who committed or attempted mass murder were allegedly marijuana users. Some of them had psychosis and had deranged, paranoid thinking which may have been triggered by pot use. Others are not so clear, but they appeared to lack a conscience or empathy. Scientific research tells us that people who have schizophrenia and use marijuana, instead of prescribed medicines, they become more violent and vengeful than they otherwise would be.

Was clearly psychotic at the time.‘ On his social media pages, Brooks describes himself as a “stoner.” <https://www.nationalreview.com/corner/was-the-waukesha-killer-a-stoner/> "... Brooks' attorney, public defender Anna Kees, argued that Brooks was high during the incident, noting that officers who arrested him noticed he smelled of marijuana and his eyes were red and glassy... But District Attorney Susan Opper countered that all Brooks had to do was stop the vehicle, and that even if he was high on marijuana he still committed multiple crimes..."
