Prepare for World War III

Cliff Kincaid, President, America's Survival, Inc.

We are in the middle of a Third World War and another American civil war. But do the American people have the will to win? And can anti-American forces inside the borders of the United States take advantage of this internal division to stage a coup and replace the elected president, Donald J. Trump, and his Vice President J.D. Vance? We need a Pentagon full of warriors whose loyalty is to the Constitution. The military must be prepared to save the republic from a communist/Muslim dictatorship.

America is at war with Iran and its Red Chinese and Russian backers.

In Iran, Trump has acted to save Western civilization from a Nazi-style regime in religious garb pursuing nuclear weapons that could kill millions of Americans. The war on the Islamic Republic of Iran constitutes justice on behalf of the victims of Iran, including the 1983 bombing of the U.S. Marine Barracks in Lebanon which killed 241 American military personnel, at least 600 American soldiers murdered in the Middle East and nearly 900 wounded. But many have turned on Trump, mostly because of high gas prices. By contrast, as demonstrated in numerous exhibits at the World War II American Experience Museum in Gettysburg, Pennsylvania, the American people in that World War rallied as they encountered gas and food rationing, built victory gardens, and gathered up scrap metal for the war effort. Americans learned to ration foods like sugar, coffee, cheese, and meats. A "victory speed limit" of 35 miles an hour was established to conserve gasoline and rubber tires. Toy companies were converted to making war material.

The United States suffered approximately 1,078,594 total military casualties during World War II, which lasted six years: 407,316 total U.S military deaths and wounded in action estimated at 671,278.

By contrast, the Iran War, (Operation Epic Fury), which began on February 28, 2026, by September 20 had resulted in 18 deaths and 820 to 830 + U.S. service members officially reported wounded.

President Trump inherited a Russian war on Ukraine, a Taliban terrorist takeover of Afghanistan, Iranian progress toward nuclear weapons, and Red Chinese threats against the Republic of China on Taiwan, while security experts warned there were "sleeper cells" of foreign fighters inside the U.S., and that the number could be in the tens of thousands, or more.

The good news is that, under President Trump and Secretary of War Pete Hegseth, military recruitment is experiencing a historic, record-breaking surge across all branches (including the Army, Air Force, Navy, Marines, and Space Force). They have authorized the destruction of narco-terrorists in our hemisphere, when they send drugs to our shores to poison Americans, as

well as the brilliant military operation in downtown Caracas, Venezuela, when American forces grabbed a communist dictator and returned without a single U.S. casualty. Most recently, Trump announced a historic agreement with the Kingdom of Denmark and Greenland that gives the United States permanent control over security — and all other needs — in Greenland, at no cost to the American people. The agreement secures indefinite U.S. access, overflight rights, and the unilateral authority to build additional military installations and expand bases as needed.

Hegseth, a veteran of the Afghanistan and Iraq wars, wrote the books *In the Arena* and *Modern Warriors.* Another brave soldier, Lt. Col. Matthew Lohmeier, had written, I*rresistible Revolution: Marxism's Goal of Conquest & the Unmaking of the American Military,* about a Chinese-style Marxist cultural revolution in the military under Biden. He was fired under Biden but under Trump he became the 29th Under Secretary of the Air Force.

The demoralization and division in the Armed Forces addressed by Lohmeier's book have been reversed. As a result of these personnel changes, as well as a renewed focus on merit, discipline, and war-fighting capabilities, rather than DEI, there is a renewed wave of patriotism among young Americans.

However, we must seriously consider bringing back the military draft to create a fighting force to challenge external and internal enemies.

Note: China (2.03 million), Russia (1.32 million), and North Korea (1.28–1.32 million) together command nearly 4.6 million active-duty personnel. In comparison, the U.S. maintains about 1.32 million active-duty troops.

While the military branches are meeting or exceeding their goals ahead of schedule, there is a problem.

In total, 14.9 million men between the ages of 18 and 26 were registered with the Selective Service at the close of CY 2025, representing a national registration rate of 78.7 percent. A 78.7% registration rate is generally considered low relative to historical benchmarks for the Selective Service System, which historically targeted compliance rates closer to 90% or higher.

To address this problem, under the National Defense Authorization Act, the government will begin automatically registering eligible men using federal agency data.

The situation is dire politically.

More relevant than ever before, America's Survival, Inc. released a hard-to-find copy of the 1961 House Committee on Un-American Activities analysis of the book *How Parliament can Play a Revolutionary Part in Transition to Socialism.* This is a how-to-book on how communists overthrow non-communist majorities and make democracies into dictatorships. The book outlines how a parliament or legislative body (such as the U.S. Congress) can be helpful in "transforming democratic nations" into communist countries. The author, Jan Kozak, historian of the Communist Party of Czechoslovakia, argues that "our experience provides notable and practical proof that it is possible to transform parliament from an instrument of the bourgeoisie into an instrument of the revolutionary democratic will of the people and into an instrument for the development of the socialist revolution." This is the Red-Green alliance in America working through the Democratic Party.

C. Bradley Thompson, executive director of the Snow Institute for the Study of Capitalism at Clemson University, notes: "In a remarkably short period of time, the philosophy of Karl Marx profoundly changed

the course of human civilization. In fact, no system of ideas transformed the world as quickly or as comprehensively as did the philosophy of Marx—not even the teachings of Jesus or Muhammad."

"One should not forget," wrote Vladimir Bukovsky, "that back in 1917, Lenin started out with only forty thousand comrades."

The Revolutionary Communists of America notes, "Across all age groups, some 60 million people in the US have a favorable view of communism. If we gather just 0.1% of them, we will have a 60,000-strong organization." In fact, in 2021, we noted that the Democratic Socialists of America (DSA), a Marxist organization that draws heavily from the ideas of the late Italian Communist Party theoretician Antonio Gramsci and refers to its members as "comrades," had grown to almost 100,000 members,

When my organization, America's Survival, Inc., tried to publicize the communist and Muslim roots of the 2008 Democratic Presidential candidate, Barack Hussein Obama, we were attacked by the Washington Post, the Southern Poverty Law Center, and the Council on American-Islamic relations. The lack of coverage in 2008 of the embarrassing facts in Barack Obama's background, especially his deep personal relationship with communist Frank Marshall Davis, stands as a sensational example of how dishonest the national media can be when they are determined to elect somebody. The "fake news" changed the course of American history, producing the rise of "democratic socialism" we see today.

Hence, we published *All The Dupes Fit To Print: Journalists Who Have Served As Tools Of Communist Propaganda* in 2013.

We must quickly understand the forces that have taken over the Democratic Party and the civil war we find ourselves in. Obama strategist Steve Phillips actually wrote a book, *How We Win the Civil War: Securing a Multiracial Democracy and Ending White Supremacy for Good.*

Our organization was defunded and deplatformed under the Biden Administration.

So-called "armed struggle," violence, and terrorism are also evident. Trump was the target of several assassination attempts, including an Iranian-sponsored plot. He has survived all of them. The night before Charlie Kirk's murder, Marxists from Code Pink, a group linked to the Chinese Communist Party, infiltrated a dinner in Washington, D.C. that featured the president, the vice-president, and other high-level officials. The Marxists screamed "Free DC. Free Palestine. Trump is the Hitler of our time" but could easily have been armed with weapons or bombs. They were not arrested. These Marxists regularly infiltrate and disrupt hearings on Capitol Hill but are obviously NOT under FBI surveillance.

In the Charlie Kirk murder case, like the attempted assassination of Trump in Butler, Pennsylvania, security officials failed. Do these stunning failures and reckless decisions suggest Deep State "Insider" threats on the lives of other prominent conservatives?

The FBI does not investigate communist groups on American soil anymore because some of them are integrated into the Democratic Party, whose congressional members do not go through background checks and yet conduct House oversight of America's intelligence agencies. The Communist Party USA (CPUSA), once aligned with and funded by Moscow, openly supported Barack Hussein Obama for president in 2008 and 2012. Obama's CIA director John Brennan voted for the CPUSA in college.

In response, America's Survival, Inc. (ASI) proposes dozens of measures and initiatives:

1) Protect President Trump by demanding a truly independent examination of the security failures by the Secret Service and local police in regard to the attempts on his life. Identify the “Insider Threat” In the federal bureaucracy and hire ex-military professionals to defend the president and other top White House officials and conservative personalities. Note: FBI Director Christopher Wray even said he wasn’t sure if a bullet hit Trump in Butler, Pennsylvania, where the would-be assassin, Thomas Crooks, was seen with unidentified men at a gun range and his cremation paid for by an anonymous donor. ASI requested – and was denied – access to any material relating to security involving and advance planning regarding the murder of Charlie Kirk.

2) Support the development of AI for national security and civilian applications without interference from socialist Democrats, the Vatican or the United Nations. There is a solution to the perceived problem of AI being used for nefarious purposes. And that is that private AI companies (like OpenAI, Google, Anthropic, or Meta) must mandate legal oaths of allegiance to the U.S. for all of their employees. Although engineers working on classified government AI systems must undergo the standard U.S. security clearance process (Standard Form 86 / SF-86), this only applies to a small group of AI employees.

3) Federal Standard Form 86 for federal employees asks about their foreign contacts in the context of whether they have been a member of, or associated with, an organization dedicated to using violence, force, or unconstitutional means to alter or overthrow the U.S. government. It is not an effective way to test the loyalty of the people who go to work for our intelligence community or companies working for the government. Subject high-ranking officials in the U.S. military and other agencies to polygraph examinations as part of a sweeping investigation into leaks involving classified information about America’s stockpiles of sophisticated weapons.

4) Expel Senator Bernie Sanders from the Senate. Sanders is a self-declared socialist who sympathized with the Soviet Union and even took a honeymoon there. Bernie Sanders was on a list of speakers at the 10th anniversary conference of the Soviet front U.S. Peace Council, held in Boston, Massachusetts, Nov. 10-12, 1989. He hosted a 75-minute panel in 2026 on “the existential threat of AI” where two of the four panelists were Chinese government affiliates and is now pushing for a U.S.-China international treaty to ban AI superintelligence and pause advanced artificial intelligence development. He performed manual labor on an Israeli commune or kibbutz dedicated to Joseph Stalin.

5) Put Barack Hussein Obama on trial for identity theft and fraud. We wrote three books on the revolutionary anti-American politics of Obama and the “Red-Green” Communist-Muslim alliance of subversive forces he set in motion. Obama concealed his Marxist/Muslim identity when he ran for office and engaged in a conspiracy to defraud the voters by falsely claiming to be a Christian and using a fraudulent Social Security number and questionable birth certificate. Obama was a “mole” groomed by a communist by the name of Frank Marshall Davis.

6) Understand Marxist dialectics. Our 2017 book on Barack Hussein Obama, *Red Star Rising: The Making of Barack Hussein Obama and the Transformation of America,* concluded that Russia-gate was a diversion from the Russian penetration of the national Democratic Party and Russian control over, even blackmail of, Barack Hussein Obama. As we noted back then, Russia-gate was a brilliant Marxist dialectical maneuver, as seen in the fact that Rep. Jamie Raskin, a Maryland Democrat and a vice chair of the Congressional Progressive Caucus, emerged as a major critic of Russian influence in the Trump Administration. His father was Marcus Raskin, a former Kennedy administration official who was a founder of the Marxist Institute for Policy Studies (IPS) and soft on Soviet Russia.

7) Indict China President Xi for the killing of 1.2 million Americans through COVID and the Democrat governors who put COVID-19 patients in assisted living centers. Sue the Chinese Communist Party (CCP) and Chinese government entities in U.S. federal courts for financial compensation. Cancel U.S. treasury debt owed to China to offset pandemic-related economic damages by imposing additional tariffs on China. Note: there are several newer subvariants of COVID-19 currently circulating in the United States and the side-effects of the vaccine

continue to cause suffering and death. As noted by Bertil Haggman, director of the Center for Research on Geopolitics in Sweden, the Communist Party of China, with 90 million party members, is a criminal political party that is probably responsible for killing between 80 and 100 million people.

8) The Trump Administration says that the health problems known as Havana syndrome constitute a communist microwave weapon used by the Russians and Chinese. Hold them accountable.

9) Arrest and deport Hungarian-American George Soros, the billionaire hedge fund operator, for having concealed his ties to “former” communist individuals such as Karl Popper and his involvement in his youth as a collaborator with the Nazi movement. Soros got entry into the United States and acquired American citizenship through false pretenses. He claimed to be pro-American when he was influenced by a former Marxist, Karl Popper, and played a role in a Nazi campaign in his native Hungary to loot Jews trying to escape the Holocaust. As an adult, he defended his actions. After getting entry to the United States, he declared the “capitalist threat” as his major enemy, effectively throwing his weight behind the global campaign to destabilize the West, especially the United States.

10) Return to paper ballots for elections. Contact election cybersecurity expert Mark Cook and request his "Hand Count Road Show" in your area. Cook, the computer expert who advised the White House on how the 2020 election was stolen, says Democrats and their allies are planning to rig the 2026 congressional elections through electronic voting systems, take over Congress, impeach the President and Vice President, and then remove them from office. Note: President Trump released declassified intelligence that foreign adversaries, led by China, “have compromised U.S. voter data on a massive scale and that America’s election infrastructure remains dangerously vulnerable to hacking and manipulation…” Note: when Cliff Kincaid used his YouTube channel to focus attention on the use of the “China virus” to allow mail-in voting schemes to rig our elections in 2020, he was censored for three years under Joe Biden. By contrast, major “conservative” channels paid financial settlements to the electronic voting machine companies for criticizing them.

11) The illegal and unconstitutional opinions of the Supreme Court must be rejected and the justices who endorse these decisions must be impeached**.** To this day, the innocent unborn are not given due process, although the Supreme Court did return the matter to the states. In another outrage, the Supreme Court failed to intervene to stop the illegal certification of Joe Biden as the 2020 “winner.” In the Supreme Court ruling (*Learning Resources, Inc. v. Trump*), the Court voted 6–3 against the administration, holding that the International Emergency Economic Powers Act (IEEPA) does not grant the president authority to impose tariffs. Trump nominees Justice Neil Gorsuch and Justice Amy Coney Barrett voted against him. In the recent 7-2 decision against his plan to guarantee the security of mail-in ballots, Trump noted that he nominated Justices Brett Kavanaugh, Neil Gorsuch, and Amy Coney Barrett, and they “are not the people I interviewed to serve on the United States Supreme Court.” He added, “They are merely a shell of their original selves." They were part of the 7-2 decision against him. Ironically, the two justices in the decision ruling for Trump are the only two constitutional conservatives left on the court, and they were both appointed by presidents other than Trump -- Clarence Thomas (nominated by President George H. W. Bush) and Samuel Alito (nominated by President George W. Bush),

12) Defund the United Nations by passing the “Disengaging Entirely from the United Nations Debacle (DEFUND) Act,” which calls for the United States' complete withdrawal from the United Nations. Note: Soviet spy Alger Hiss was a high-ranking U.S. State Department official who served as a temporary secretary-general at the 1945 UN founding conference in San Francisco. The 1951 nonfiction book, *The United Nations: Blueprint for Peace,* which includes an introduction by Benjamin Cohen, the Assistant Secretary-General of the United Nations, depicts a faceless brown humanoid as the ideal human being, devoid of all heritage.

13) Investigate the role in the United Nations of an occult organization called the Lucis Trust, based near the world body, which promotes the “Meditation Room” in the U.N. headquarters where world leaders communicate with

"spiritual" entities. The "Lucis" in Lucis Trust is short for "Lucifer," another name for the devil or Satan, the fallen angel in the Bible (Isaiah 14:12-17). Cliff Kincaid went to the Lucis Trust headquarters, where he found books about communicating with occult forces.

14) Authorize FBI background checks for elected officials and reveal the results, using the CARL test -- analyzing Character, Associates, Reputation, and Loyalty to the United States. Barack Hussein Obama could not have been elected president if he had been subjected to the CARL test. But members of Congress also evade the security clearance process. A blatant example of this is former Rep. Eric Swalwell, a member of the House Permanent Select Committee on Intelligence and the subject of an FBI report and allegations that he had a romantic relationship with a suspected Chinese spy.

15) Obama CIA Director John Brennan, who voted for Communist Party USA presidential candidate Gus Hall in college, should be indicted for his role in smearing President Trump as a Russian agent and his work within the CIA in hiring transgenders and homosexuals through the agency's DEI program. The Communist Party USA, led for decades by Gus Hall, received millions of dollars in clandestine financial support directly from the Soviet Union via the KGB (Operation SOLO). Grover Norquist (founder of Americans for Tax Reform) filed a formal administrative complaint with the Federal Election Commission against the CPUSA over the foreign funding. The FEC did not act on the complaint.

16) Reinstate the House and Senate internal security committees to investigate communist groups and fronts and the activities of traitors like Edward Snowden, reinstate the Attorney General's List of Subversive Organizations, reinstate the Subversive Activities Control Board, and consider creation of an "Office for the Protection of the Constitution," such as they have in Germany. Hold hearings into the communist infiltration of the "Intelligence Community," through such penetrations as Russian agent Robert Hanssen (who did counterintelligence for the FBI); Cuban agent Ana Belen Montes (a Defense Intelligence Agency analyst), said to be a favorite of former Director of National Intelligence of the United States James Clapper; Latin America specialist Julia Sweig of the Council on Foreign Relations; and Theresa Squillacote, a former senior staff lawyer in the office of the Deputy Under Secretary of Defense who was convicted of espionage for the former Soviet Union and East Germany and was the wife of DSA member Kurt Stand, also convicted in the scheme. "My experience has been that there was a 'hidden hand' that blocked the CIA from any kind of aggressive moves to stop Cuban subversion in Latin America," a former intelligence official told me. "Our government and institutions are thoroughly infiltrated, unfortunately," he added.

17) Examine how the Communist Party of China was actually founded by a Bolshevik Soviet agent, Grigori Naumovich Voitinsky, a Russian born in Belarus in 1893. He was an agent of the Communist International (Comintern) who grew up in the U.S., joined the American Socialist Party, was active in the USA and Canada, went to Soviet Russia after the Bolshevik coup d'état, and was in China as a Comintern agent.

18) Reopen an investigation into the crash of TWA Flight 800, which resulted in the deaths of 230 passengers and crew on July 17, 1996. Federal "investigators" blamed a fuel tank explosion when eyewitnesses saw missiles hit the plane. The CIA actually produced a video showing the huge nose-less jet ascending like a rocket, an aeronautical impossibility.

19) Arrest Zohran Mamdani under the Communist Control Act and examine whether Mamdani lied on his immigration forms to get entry into the USA. Mamdani is not only a communist but a radical Jihadist-style Muslim of the Ayatollah of Iran variety. Mamdani identifies as a Shia Muslim associated with the "Twelver" movement of apocalyptic Muslims that constitute the state religion of Iran, a regime working with Moscow's backing to restart their nuclear weapons program.

20) Prosecute General Mark Milley, who defended Marxist indoctrination of our soldiers and presided over a force that included transgenders, for making secret calls to Communist Chinese officials during the final days of the Trump Administration to alert our enemies to his anti-China policies and war plans. He can be charged under Articles 94 (mutiny/sedition), 77 (aiding/abetting the enemy), and 133 (conduct unbecoming) of the Uniform Code of Military Justice. It was Milley who presided over the chaotic withdrawal of U.S. forces from Afghanistan in 2021 that precipitated the deaths of 13 U.S. soldiers killed by a terrorist suicide bombing at the Abbey Gate entrance to Kabul airport. The terrorist Taliban took over the country.

21) Release all the Epstein files. Epstein was a member of the Council on Foreign Relations and made a secret trip to Cuba to meet with Fidel Castro and traveled to Russia, where he was photographed wearing a cap featuring a red star, and had a relationship with a one-time CIA front company. Epstein used these sexual relationships, including homosexuality, to get what the intelligence agencies wanted out of his targets. William J. Burns, who was the Director of the CIA under Biden, appeared in documents, schedules, and communications found within the released Jeffrey Epstein files. The interactions occurred between 2013 and 2014, during the Obama administration, while Burns was serving as the U.S. Deputy Secretary of State.

22) Reopen an investigation of 9/11, an attack that was foreseeable and preventable. As journalist Peter Lance has documented, there was a spectacular “failure of accountability” for those who could and should have stopped the 9/11 attacks. Lance said the 9/11 commission, officially known as the National Commission on Terrorist Attacks Upon the United States, was a whitewash and that commission members had political agendas designed to protect people and agencies from scrutiny. Lance's book, *Triple Cross*, traces the history of some of the perpetrators of these terrorist acts going back to 1981. His book goes into substantial detail about the TWA 800 and Oklahoma City bombing cases and how government officials covered up the nature of these crimes, too.

23) Investigate the Saudi and Iranian role in funding the Global Jihad Movement responsible for 9/11 and put Saudi Arabia on the State Department list of state sponsors of terrorism, along with Iran. 9/11's so-called 20th hijacker, Zacarias Moussaoui, a convicted terrorist, told attorneys suing Saudi Arabia over its role in 9/11 that three major Saudi figures – Prince Alwaleed bin Talal, Prince Bandar bin Sultan, and Prince Turki al-Faisal – were on a list of donors to al Qaeda prior to 9/11. Note: A military intelligence unit, Able Danger, had identified several of the 9/11 hijackers in the U.S. a year before the 9/11 terrorist attacks were carried out. Nothing was done with the information by Clinton Administration officials who could have exposed and possibly stopped the plot. It is mind-boggling that President Bush gave George Tenet, CIA director at the time of 9/11, a presidential Medal of Freedom. Tenet is the official who not only failed to stop the attack but would go on to tell President Bush that finding weapons of mass destruction in Iraq would be a slam dunk. Reopen the case of the post-9/11 anthrax attacks, blamed by the FBI on a dead American scientist, Bruce Ivins, and examine how Dr. Ayman al-Zawahiri, head of Egyptian Islamic Jihad and a reported KGB agent before he took over al Qaeda, carried out the attacks by arranged the theft of the anthrax from a U.S. lab, using al Qaeda assets and operatives on American soil. The anthrax letters, which were mailed to American media organizations and two senators, featured the phrases “Death to America,” “Death to Israel,” and “Allah is God.”

24) Reopen the investigation into the strange death of Clinton White House deputy counsel Vincent Foster, a murder labeled a “suicide” in an Independent Counsel investigation led by a Republican named Kenneth Starr and his assistant, prosecutor Brett Kavanaugh. Evidence demonstrated the existence of a shadowy group of operatives who would intimidate a witness, Patrick Knowlton, with information contradicting the government’s story. Foster had access to the secrets of Hillary Clinton and the National Security Agency (NSA).

25) Back the “Appeal for Nuremberg Trials for Communism,” conceived by Vladimir Bukovsky. An official Nuremberg Trial for the communists and their fellow travelers in the West must be held. Consult our book *Back from the Dead: Return of the Evil Empire.* Herman O. Bly, a retired FBI special agent, wrote the 1998 book, *Communism, the Cold War, and the FBI Connection*, about how he was hired by Dr. Lothar Metzle, who

ran the CIA unit known as the Communist International Group (CIG), to investigate assassin Lee Harvey Oswald's communist connections. After doing so, Bly wrote, "The Warren Report concluded that Lee Harvey Oswald acted as a lone assassin, but I believe the heads of the FBI, CIA, and President Johnson wanted the Oswald case brought to a conclusion as fast as possible as they did not want another crisis with the Soviet Union so soon after the Cuban missile crisis."

26) Lt. Gen. Ion Mihai Pacepa's book *Programmed to Kill: Moscow's Responsibility for Lee Harvey Oswald's Assassination of President John Fitzgerald Kennedy*, details the KGB's disinformation Operation Dragon, aimed at throwing the blame on various elements in the United States for killing their own president. Over the years the Soviets have successfully confused many people about the communist role, blaming the CIA, the Mafia, the right-wing, Texas, oil men, or LBJ.

27) Abortion is the leading cause of death. Abortion, which was first legalized in Communist Russia, is a legacy of communist ideology, and the most enlightening comments on its evil roots were found in ex-communist Whittaker Chambers' 1952 memoir *Witness.* Chambers wrote that his wife's refusal to abort their child in 1933 marked a pivot away from communism toward a recognition of the sanctity of human life. With approximately 900,000 to 1,000,000 abortions per year in the United States, this count exceeds annual U.S. deaths from heart disease (~680,000) and cancer (~620,000). Defund Planned Parenthood and end the use of human aborted parts for medical research and vaccines. Pass a Human Life Amendment to the Constitution. With an estimated 73 million abortions occurring worldwide each year (based on WHO operational data compiled by Worldometer), this figure exceeds annual deaths from all individual diseases combined (which total around 60–70 million worldwide).

28) Visit Ronald Reagan's alma mater, Eureka College, and the Ronald Reagan Museum. Items in the museum include an album of Reagan speaking out against socialized medicine. Ronald Reagan saw the light on abortion and compared human slavery and abortion in his famous article in Human Life Review.

29) Visit the Victims of Communism Museum in Washington, D.C. but understand that a defector from the KGB, Anatoliy Golitsyn, had exposed the Soviet/Russian plan to dominate the world through propaganda and disinformation. His charges were ridiculed as a fantastic "Monster Plot" by top CIA officials, who thought the Russian communists were incapable of planning and carrying out such a plan. As I recounted in the America's Survival book, *Back from the Dead: The Return of the Evil Empire*, a former government official told me what happened when Golitsyn had defected in 1961 and was brought into a room to be debriefed. "He looked around and realized that half the CIA operatives in front of him were KGB double agents whose reports he had read on the other side," the former official told me. James Jesus Angleton, former head of counterintelligence for the Central Intelligence Agency, had taken Golitsyn's allegations very seriously.

30) Examine the phenomena of cultural Marxism. One of my first books, *The Playboy Foundation: A mirror of the culture? (*1992), about the Playboy Foundation of Hugh Hefner, documented how money from pornography financed the abortion rights, gay rights, and drug legalization movements. Hefner, a major contributor to the Democratic Party who died in 2017, is reported to have had 19 different wives and/or regular girlfriends and experimented in bisexuality. In total, his sexual "partners" were said to number over 1,000. For an update, please consult our report*, Cultural Marxism and America's Moral Collapse,* on how communism has come to America through infiltration of our culture and institutions. Today, there are approximately 800,000 registered sex offenders in the United States.

31) Visit the NSA's National Cryptologic Museum in Fort Meade, Maryland. One of the highlights of the NSA's history is the VENONA project which exposed a massive Soviet espionage effort against the U.S. that unmasked such traitors as State Department official Alger Hiss, Department of Justice official Judith Coplon, and Department of the Treasury official Harry Dexter White.

32) Investigate why the NSA' s National Cryptologic Museum has whitewashed the infiltration of our nuclear labs during World War II by the Russian communists by featuring an exhibit claiming that Soviet spy Robert Oppenheimer of the Manhattan Project was just a patriotic American! Note: When NSA analysts William Martin and Bernon Mitchell defected to Russia in 1960, President Eisenhower labeled them as traitors and former President Harry Truman said they should be shot. Investigations revealed that both young men had been members of the Communist Party and homosexual lovers.

33) Investigate why Washington elites have protection from nuclear war at the federal facility on Raven Rock, a mountain in Pennsylvania, while ordinary Americans have to prepare for themselves. Note: Cliff Kincaid tried to take pictures of the facility and was met by armed guards and Pentagon police. Meanwhile, Trump plans to make the Triumphal Arch, at the receptive circle adjoining the Arlington Memorial Bridge, into a top-grade Military Complex with large numbers of drones, plus snipers. His ballroom project is also supposed to include an underground military structure.

34) Revoke Obama's National Park Service designation of the "Stonewall Monument" that designated transgenders and other self-described "queers" as civil rights pioneers and terminate funding for it. Examine the role of communists in creating the "gay rights" and transgender and feminist movements.

35) Oppose marijuana legalization. Conduct hearings into the elevated levels of mental illness, addiction, suicides, and traffic deaths and the unseen mental and physical defects to babies and future generations from the use of marijuana and other mind-altering drugs. Examine the role of Russia and China in the marijuana business, including the Russian-financed marijuana business Curaleaf and the Chinese Communist Party-linked marijuana farms on America soil. Note: 24 states (plus Washington, D.C.) allow adults 21 and older to possess and use cannabis recreationally (all of these states also allow medical use).

36) Use the Racketeer Influenced and Corrupt Organizations Act (RICO), a federal law intended to combat organized crime in the U.S., to investigate the U.S. Catholic Church for its cover-up of child sex abuse scandals. As of 2026, 44 Catholic religious organizations (including 37 Catholic dioceses/archdioceses and 7 religious orders or provinces) in the United States and its territories have filed for Chapter 11 bankruptcy protection due to sexual abuse claims and financial liabilities

37) Create academic centers focused on capitalism, such as the Snow Institute for the Study of Capitalism (Clemson University). Note: our book *Marxist Madrassas* discusses on-line educational alternatives. Withhold federal funding from higher education institutions which promote tenets derived from Critical Race Theory (CRT) or Marxism/communism and anti-Semitism and include programs linked to the Chinese Communist Party.

38) Support local sheriffs and cooperation with U.S. Immigration and Customs Enforcement (ICE). Support the federal class-action lawsuit challenging state restrictions on cooperation with ICE.

39) Enforce criminal anarchy or related anti-subversion statutes, such as in New York (N.Y. Penal Law § 240.15), which explicitly defines "Criminal Anarchy" as a Class E felony for advocating the overthrow of the state government by violence, distributing literature advocating such violence, or knowingly joining an organization that promotes it. States including Florida, Massachusetts, Washington, and Arkansas have similar statutes addressing criminal anarchy, sedition, or subversion.

40) Identify state, county and local officials who will introduce a "Victims of Communism" curricula for students, to teach children about its ideology of violence and terrorism. Require that schools teach students that Islamic terrorism was behind the 9/11 attacks.

Enforce the laws on the books and pass new laws

41) **Loyalty and striking, 5 U.S. Code § 7311**, which explicitly prohibits individuals from accepting or holding a position in the U.S. Government if they advocate the overthrow of our constitutional form of government or belong to organizations that do.

42) **The Communist Control Act, 50 U.S. Code § 841,** that criminalizes membership in or support for "Communist-action" organizations.

43) **The Smith Act (18 U.S.C. § 2385):** Makes it a felony to knowingly advocate, teach, or organize any group that advocates the overthrow or destruction of the U.S. government by force or violence.

44) **Seditious Conspiracy (18 U.S.C. § 2384):** Criminalizes two or more people conspiring to overthrow or destroy by force the government of the United States.

45) Increase the use of the Alien Terrorist Removal Court to remove alien terrorists from the United States.

46) Require the State Department to designate the Council on American-Islamic Relations (CAIR) as a Specially Designated Global Terrorist (SDGT) organization and revoke CAIR's 501(c)(3) tax-exempt status. Pass laws banning the use of foreign or religious law in state courts.

47) Pass legislation to declare the Muslim Brotherhood network a Foreign Terrorist Organization. Note: The Muslim Brotherhood, which effectively controls Qatar's Al-Jazeera television network, gave rise to terrorist organizations such as Hamas, the officially designated Foreign Terrorist Organization (FTO) that launched the October 7, 2023 attacks on Israel.

The Role of Christian Churches

48) Religious leaders, especially in the Roman Catholic Church, must purge their ranks of child abusers and deviants, settle with the victims, and terminate the "Lavender Mafia" that protects and rewards pedophile and predator priests. Note that the Catholic Church, which played no significant role in America's founding, has played an essential role in the socialization of American society and economy, such as through passage of Obamacare. Only one signer of the Declaration of Independence (out of 56) was Catholic. In Washington, D.C. Archbishop Robert McElroy was appointed by Jesuit Pope Francis to confront President Trump over his immigration and other policies, and has subsequently removed priest-exorcist Monsignor Stephen J. Rossetti and is forcing the retirement of a local priest who warned about the "Powers of Darkness" in Rome. As my family was visiting Rome in February of 2020, we took a tour of the Colosseum only to discover a statue of Moloch, the pagan deity of child sacrifice, being displayed. It was truly shocking. The Colosseum is viewed by many Christians as a sacred site because early Christians were martyred there.

49) The churches must return to preaching about the 10 commandments and the need for exorcisms in the face of mounting cases of demonic possession. Denounce socialism as theft ("You shall not covet your neighbor's goods") and abortion "Thou shalt not kill" and euthanasia. Rather than just turn out for the annual March for Life, support organizations such as Abolitionists Rising. Note: there are reportedly six exorcisms being conducted in the Catholic Archdiocese of Washington at the current time. Satan proclaimed, "My name is Legion, for we are many," in answer to Jesus' question, "What is your name?"

50) Preach about God's miracles in human history, including America's founding by Christopher Columbus, a devout Catholic explorer whose historic 1492 voyage was deeply driven by his Christian faith and a mission to spread the Gospel, as well as George Washington's miraculous survival in a fierce battle during the French and Indian War. When the fighting ended, he discovered four bullet holes in his coat and two horses had been

shot out from under him -- yet he had not been wounded. Catholics should ask their priests to address the Fatima revelations about the fall of Russia to communism, as well as eucharistic miracles, and the “sign” of “You shall conquer” that appeared during Roman Emperor Constantine’s battle to end the persecution of Christians.

51) Churches, communities, and citizens must develop emergency response plans, for over 500 acts of vandalism, arson, and other destruction targeting Catholic churches and sites across the U.S. since May 2020.

52) The Catholic Church should return to popular Bishop Fulton Sheen’s anti-communist message, set forth in his book *Communism and the Conscience of the West.* Examine the revelations of former high-ranking communist Bella Dodd, who wrote a book, *School of Darkness*, testified before congressional committees about communism’s influence in American society, and described communist infiltration of the Roman Catholic Church as designed to usher in a world government.

Kincaid concentrated in journalism and communications at the University of Toledo, where he graduated with a Bachelor of Arts degree in 1978. Cliff won an award for editorial writing from the Society of Professional Journalists and came to Washington through a national journalism program headed by conservative author and journalist M. Stanton Evans. Hired out of college by Accuracy in Media (AIM) founder Reed Irvine, Cliff served as editor of the AIM Report and director of the Accuracy in Media Center for Investigative Reporting. He co-hosted CNN's "Crossfire" program in 1986, served on the staff of Human Events, President Ronald Reagan's favorite newspaper, and met President Reagan on two occasions. He was also an editorial writer for former National Security Council staffer Oliver North. Cliff appeared in a Newseum film on media bias and his overseas assignments have included Japan, the Philippines, South Korea, Thailand, Republic of China on Taiwan (1985), England, France, East and West Germany (1983), and Haiti (1981).

"As a young journalism student, I 'learned' from Curtis J. MacDougall's textbook [Interpretative Reporting] that Walter Duranty of the New York Times was one of the great figures in the media," Cliff says. "I later learned the truth -- that Duranty was a stooge of Soviet dictator Joseph Stalin and one of the greatest liars in the history of journalism. In fact, he helped Stalin cover up the deaths of as many as 10 million Ukrainians in a forced famine known as the Holodomor." ASI obtained MacDougall's 319-page FBI file, showing his long association with a series of Communist Party front groups. That helped explain his praise of Fidel Castro and fear of Senator Joseph McCarthy's anti-communist investigations.

Cliff Kincaid has personal knowledge of left-wing and communist activities in education. After initially being invited to speak during a campus debate, Kincaid was personally banned from the State University of New York at New Paltz in March of 2016, largely on the basis of attacks on his anti-communist journalism by the Southern Poverty Law Center. in our 2016 book, *Marxist Madrassas*, on higher education, we warned that young people were being groomed for socialism.
