TO: The Editor
RE: ARTICLE FOR PUBLICATION

"THE CASE AGAINST IRAN"

1. I stand whole-heartedly WITH President Donald Trump in his decision to go to war with Iran. Unfortunately, I do not think that he has made a strong enough case for that decision with the American people--for which the mainstream newsmedia is largely to blame for their selective reporting--but, if they were cognizant of certain facts, then they would surely support Pres. Trump's decision to go to war with Iran.

2. First and foremost is the incontrovertible fact that, in February of this year, Iranian leaders had boasted that they were finally within 1-2 weeks of developing a NUCLEAR BOMB--which, for the past 47 years, they had declared that they would use... against Israel AND THE UNITED STATES. Therefore, Pres. Trump did the only thing that any reasonable, prudent, and patriotic leader could and would do: i.e., launch a pre-emptive strike against Iran--before Iran attacked the United States (like they had been saying that they would do for the past 47 years)... and killed MILLIONS of Americans.

3. But, let us look at history, and see what further justification Pres. Trump had for launching a pre-emptive strike against Iran:

a. 04 Nov. 1979: Islamic militants seized the U.S. Embassy in Tehran, Iran--and held 53 American hostages for 444 days;

b. 24 Apr. 1980: Pres. Jimmy Carter ordered the U.S. Armed Forces to launch Operation Eagle Claw to liberate the 53 American hostages--a mission that was aborted after 8 American servicemen were killed in a refuelling accident in the Iranian desert;

c. 23 Oct. 1983: Hezbollah terrorists bombed the U.S. Marine Corps barracks in Beirut, Lebanon--and killed 241 American servicemen, and injured a great many more;

d. 14 Jun. 1985: Hezbollah terrorists hijacked TWA Flight 847--wherein they held dozens of Americans hostage for 2 weeks... and murdered U.S. Navy diver Robert Stretham by shooting him in the head, and dumping his body on the tarmac;

e. Throughout the 1980s: American citizens throughout the Middle-East were routinely kidnapped, tortured, and murdered by Islamic terrorists;

f. Throughout the 1980s: Iranian leaders plotted the assassination of Pres. Ronald Reagan;

g. Throughout the 1990s and 2000s: Iranian leaders plotted the assassination of Pres. George H.W. Bush;

h. 26 Feb. 1993: Islamic terrorists launched the first bombing of the World Trade Center in New York--killing 6 Americans... although it was their intention to kill 250,000 Americans;

i. 25 Jun. 1996: Islamic terrorists bombed the Khobar Towers in Saudi Arabia--and killed 19 American servicemen, and injured hundreds more;

j. 12 Oct. 2000: Islamic terrorists bombed the USS Cole in Yemen--and killed 17 U.S. servicemen, while injuring 40 more;

k. 11 Sep. 2001: Islamic terrorists from Al Qaeda hijacked American airliners--and crashed them into the World Trade Center in New York, and the Pentagon in Arlington, Virginia... killing 2,977 Americans, and injuring hundreds more;

l. Thanksgiving 2003: That attack (above) worked so well that the Islamic terrorists of Al Qaeda planned another, bigger attack: to hijack airliners in Toronto, Canada--and fly them into the SEABROOK NUCLEAR POWER PLANT IN SEABROOK, N.H.!!! N.B.: That attack would have killed 200,000-800,000 Americans--and would have turned all of New England, New York, and New Jersey into a RADIOACTIVE WASTELAND!!! Thanks to the Royal

3. 1. cont.--Canadian Mounted Police, the "Toronto 19" Al Qaeda terrorists plotting the attack on Seabrook were arrested. Unfortunately, instead of prosecuting these potential MASS-MURDERERS, the Canadian government merely deported them back to their home countries in the Middle-East.

m. 2003-2011: The Iraq War: U.S. Armed Forces suffered 3,481 killed and mortally-wounded-in-action, along with another 31,991 wounded-in-action--many of whom have been disabled for life. N.B.: After the U.S. and Coalition Forces liberated Iraq from the Stalin-loving monster, Saddam Hussein (who had used Chemical Weapons [i.e., Poison Gas] against the Iranians in the Iraq-Iran War of 1980-88, and even against his own people), the leaders of Iran determined to intervene against the U.S. and Coalition Forces in Iraq: Iran committed THREE Army Corps--each composed of three 10,000-man divisions and a 1,000-man Special Forces brigade, for a total of 93,000 troops--to fight against U.S. and Coalition Forces in Iraq. Consequently, most of the U.S. and Coalition Forces casualties in Iraq were caused by IRAN!... Iran's purpose was to cause such terrific casualties, and kill so many American servicemen, that they could influence American elections... and, thereby, induce the American electorate to vote the Republicans out of office, and replace them with Democrats... who were much more inclined to favor Iran. (REMEMBER: It was Pres. Barack Obama and Pres. Joe Biden who gave Iran BILLIONS OF DOLLARS--which Iran used to fund not only Islamic terrorism, but their own Weapons of Mass Destruction (WMD) Program: Biological and Chemical Weapons (e.g., Anthrax and VX Nerve Gas) and Nuclear Weapons--which it will be remembered they were within 1-2 weeks of developing when Pres. Trump launched his pre-emptive strike in February 2026.)

n. 2024-present: Iranian leaders have plotted the assassination of Pres. Donald Trump, First Lady Melania Trump, and their son, Barron Trump.

4. The most important, and incontrovertible, facts that the reader needs to understand are that:

a. ALL of the islamic terrorist organizations--Hezbollah, Hamas, ISIS, Al Qaeda, et al.--are funded and directed by Tehran, Iran; and, if that is not clear enough, then permit me to state it point-blank: IRAN WAS RESPONSIBLE FOR 11 SEPTEMBER 2001;

b. There are Al Qaeda "sleeper cells" in the United States today--and, they have Biological and Chemical Warfare capabilities (e.g., Anthrax and VX Nerve Gas)... and they are quietly waiting for orders from Iran to USE them; and,

c. The projected ATTACK ON THE SEABROOK NUCLEAR POWER PLANT IN SEABROOK, N.H.--which could kill 200,000-800,000 people, and turn all of New England, New York, and New Jersey into a RADIOACTIVE WASTELAND--is still "on the table"; the plotters are just waiting for orders from Iran to launch their attack.

5. Most importantly, one needs to understand Islamic Jihad ("Holy War"): the Islamic Law of Takiya (in the Koran) is the "Muslims' hallowed license to lie" in order to achieve their ends (e.g., in the 1980s, Iran circulated The Big Lie that Ronald Reagan had made a "deal" with Iran NOT to release the 53 American hostages under after he had been elected and inaugurated); and, if Iran cannot achieve their ends thru Jihad ("Holy War"), then they shall endeavor to do so thru Hijra (i.e., immigration). Let that sink in....
