

Report on Kamala Harris and the Weather Underground Terrorists

FOR IMMEDIATE RELEASE Contact: Cliff Kincaid, Kincaid@comcast.net

The public policy group America's Survival, Inc. (ASI) has released a [special report](#) and several [videos](#) exploring the "cold case" murder of a San Francisco police sergeant by members of the Weather Underground and the failure of then-District Attorney Kamala Harris to bring the killers to justice. The Weather Underground received terrorist training in Communist Cuba and was advised by Soviet and Cuban intelligence agents.

President Trump has called Harris the original Marxist prosecutor but the most significant example of her failure to prosecute criminals can be found in the San Francisco Park Station bombing case, when a bomb filled with heavy metal staples exploded and ripped through the body of Police Sergeant Brian V. McDonnell, who was in the hospital for two days, bleeding from his wounds, before he finally died.

Then a San Francisco District Attorney, Harris was under pressure from the San Francisco Police Officers Association (SFPOA), which stated in a letter to ASI President Cliff Kincaid that Weather Underground terrorists Bill Ayers and Bernardine Dohrn were "largely responsible for the bombing of Park Police Station and other police stations throughout the United States..." However, Harris refused to bring charges in the case.

Back in 2009, ASI President Kincaid had held news conferences in Washington, D.C. and San Francisco, demanding that Ayers and Dohrn be held accountable for their alleged roles in the 1970 bombing murder of McDonnell. However, the media reported that the police union was "gagged" by federal and local officials for their support of the ASI campaign. The consistent under-oath testimony of former FBI informant Larry Grathwohl, who participated in meetings with Ayers, has been that Ayers told him that Dohrn planted the bomb. The 8-page ASI report explains this story in detail and the videos on the [ASI Rumble channel](#) include the eyewitness testimony of Larry Grathwohl about the planning of the bombing.

Since Kamala Harris is now positioned to be a presidential candidate, it is necessary to reiterate that what is still needed in the Park Police Station case includes:

- Forensic reexamination of bombs (for fingerprints, etc.) and bomb debris.
- Tracking down Weather Underground fugitives and support people, including requiring Grand Jury testimony from Ayers and Dohrn.
- Tools and materials discovered at Pine Street bomb factory can be retested.
- Questioning of key figures such as Kamala Harris, then-Police Chief Heather Fong, now a Biden/Harris official, and Obama Attorney General Eric Holder about the failure to prosecute the killers of Sgt. McDonnell.
